

# UOFA CROSS COUNTRY PARTNERSHIP MÂMAWINITOWIN MÎYOWÂYÂWIN LAUNCH

The role of the mâmawinitowin mîyowâyâwin is to support the health of maskêkosihk's Indigenous youth by providing sport, physical activity, and recreation opportunities through a youth mentorship model. The partnership with Golden Bears & Pandas Cross-Country will foster a relationship that provides leadership and mentorship to the Enoch Nation children around health; wellness, and the positive impacts of physical activity. This initiative highlights the power of sport in building relationships, having positive social outcomes and school achievement while providing opportunities to have maskêkosihk youth and the UofA cross-country athletes learn and be inspired by one another.
